

# Transforming government by EGON

Ondrej Felix

Egovernment chief architect

Ministry of interior

Prague, April 2009

eGONovi tluče srdce!

# ČR vision for EU presidency

- Key areas for EU wide initiatives and coordination
  - Citizen's eID
  - Secure data sharing infrastructure and base registers
  - ICT security (including critical infrastructure)
  - Tarifs (telco's and other services ,in ČR outside of Mol)

eGONovi **tluče srdce!**

**isss**  
Internet ve státní správě a samosprávě

# ČR vision of e-government

- Transform public services towards clients using eGovernment as key infrastructure
- Transform Ministry of Interior to Ministry of Public Governance

eGONovi **tluče srdce!**

**isss**  
Internet ve státní správě a samosprávě

# EGON - Key components

- Base registers
- KIVS (governmental intranet)
- Czech POINT's and Citizen's portal
- Data Boxes
- eID and multiple digital identity

eGONovi **tluče srdce!**

# EGON, key transformations

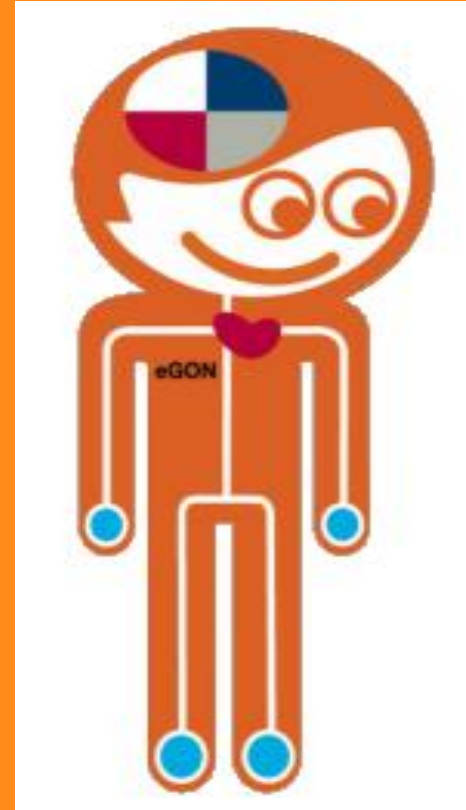

- **CzechPoints**
  - From simple certificates handling tool
  - To universal assisted government front offices (all levels of government, all available services, wide network – cca 5000 places)

**eGONovi tluče srdce!**

# EGON, key transformations

- **CzechPoint@home**
  - From central and thousands of agencies portals
  - To federated citizens portal
  - To federated governmental officials portal

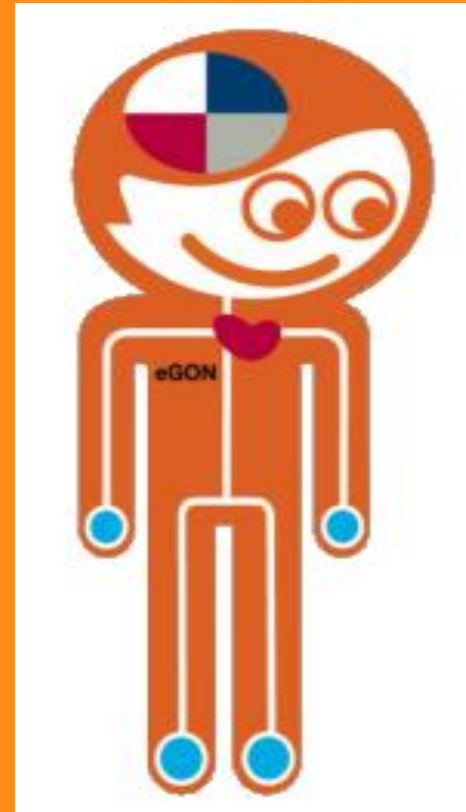

**eGONovi** **tluče srdce!**

**isss**  
Internet ve státní správě a samosprávě

# EGON, key transformations

- **Data Boxes**
  - From postal and manual paper delivery services
  - To secure electronic delivery services with seamless transformation of documents

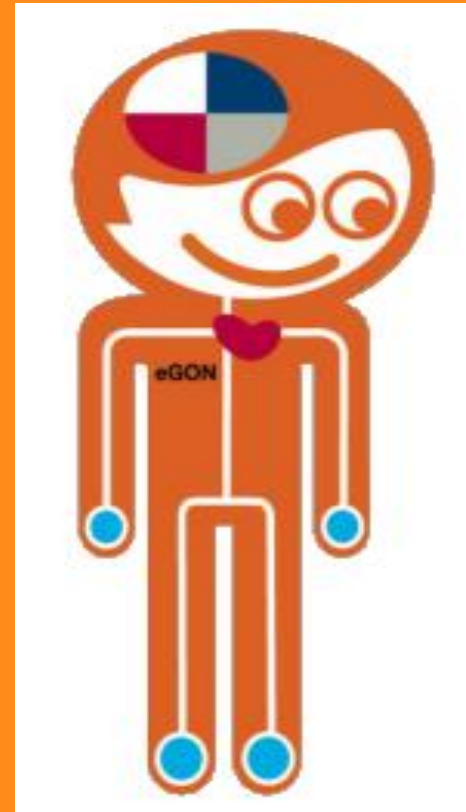

**eGONovi tluče srdce!**

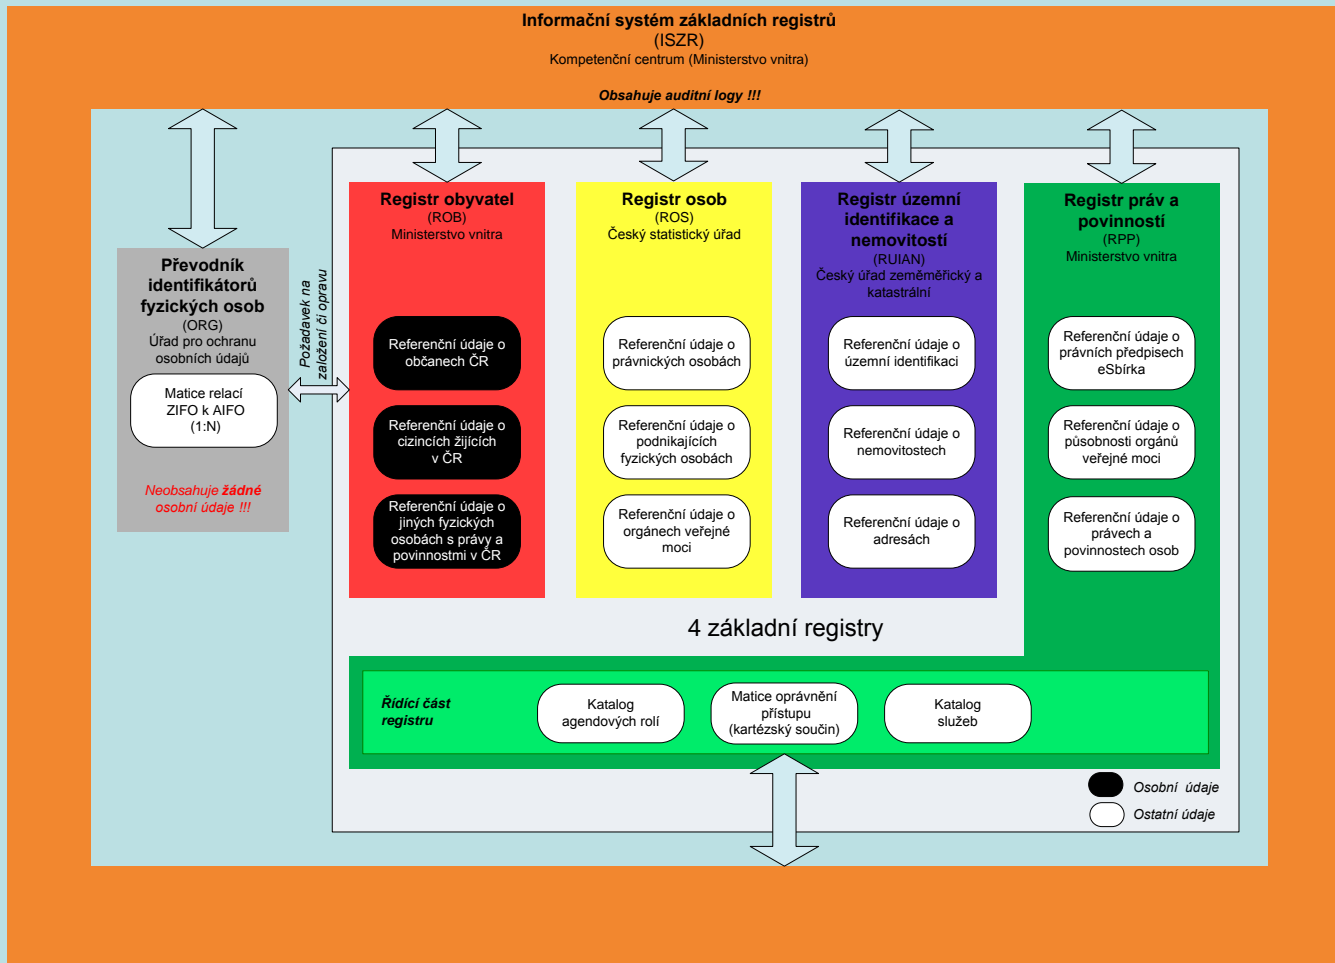

**isss**  
Internet ve státní správě a samosprávě

# EGON, key transformations

- Base registers
  - From agenda's silos
  - To family of public services using reference data

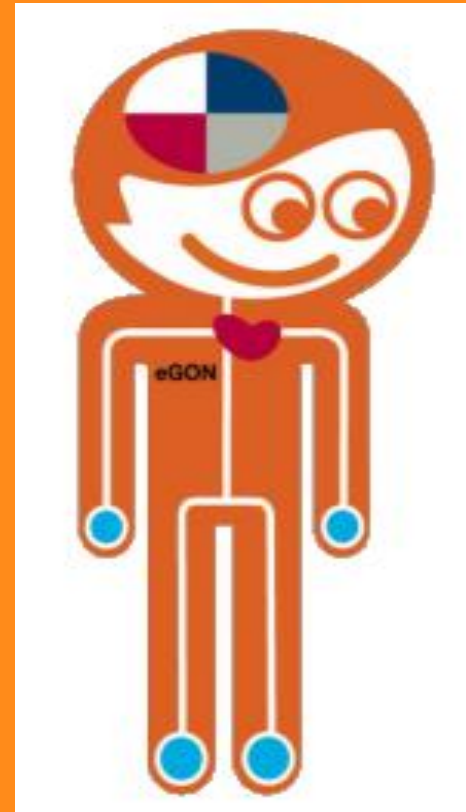

eGONovi tluče srdce!
