**Electronic documents are for eGovernment
like atoms for nature**

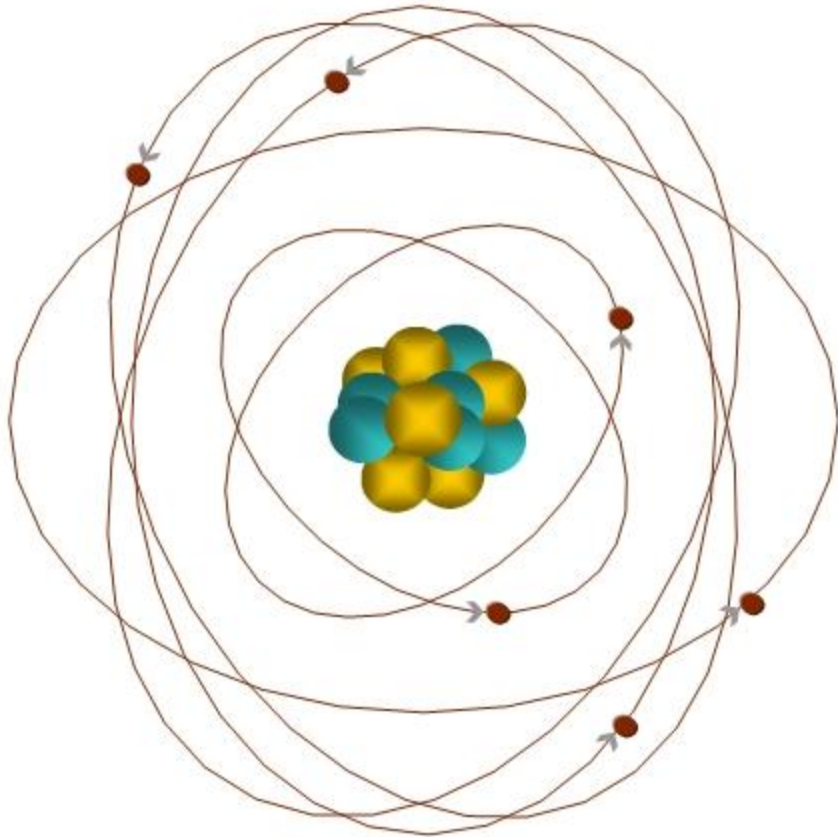

Petr Pilin

The logo for Software602 features a large, thick, blue wavy line that starts from the left edge of the slide and curves upwards and to the right, ending just above the text. The text "software602" is positioned to the right of the end of this line. The word "software" is in a dark blue, lowercase sans-serif font, and "602" is in a lighter blue, lowercase sans-serif font. A smaller, thin blue arc is positioned below the "602" part of the text.

software602

All matter is made up of atoms.

- eGovernment
 - Documents, forms
 - XML
 - PDF's
 - Doc/Xls files
 - Digital signatures
 - Time stamps
- Where is the law abiding citizen?

Needs of citizen

- Comfort
- Trust
- Communication via the Internet
- Simplicity
- Paper

Needs of the authorities

- Structured data
- Trust
- Worlwide standards
- Data interchange
- Paper

Solution to these needs

Trusted electronic original.

Conversion paper ->

electronic

and vice versa.

Why?

Because you do it only once.

Digital document

- What I need to identify:
 - that the signature is qualified
 - that the signature is valid
 - that the time stamp is valid
 - that the time stamp is qualified
- What format
 - PDF or PDF/A
- These issues were solved by one single point of contact
 - the CzechPOINT

Legal framework

- 1999/93/EC
 - framework for electronic signatures throughout the EU
- 200/2007 Sb.
 - National legislative on digital signatures
- 300/2008 Sb.
 - eGovernment Act
